

WHOLE HOME Disinfection System

Healthy living with safe water in every corner.

Point of Entry (POE) fresh water disinfection system designed to make your water safe and disinfected.

Whole home water disinfection with advanced electrochemical water treatment technology.

RT Well Treat - a whole home water solution for a healthy living.

Avoid water borne diseases during shower, mouthwash, dish washing, cloth washing, vegetable washing or even hand wash. Protect yourself against bacteria, viruses and fungi. RT well treat is effective against most organisms like Legionella bacteria, Cryptosporidium, Rotifers, Copepods and E. Coli. Ensures a residual effect of disinfectant avoiding any pickup of germs even in pipeline during distribution.
